

EARLY CHILDHOOD EDUCATION

Advanced Certificate

Teachers who work in high quality programs for children understand how young children grow and learn, and are able to provide materials and activities that are developmentally and interest appropriate. Our program provides students with the knowledge and skills necessary to create a positive and enriching learning environment for young children.

This program offers students the flexibility to earn credits to become employable as a lead teacher in a child care program, obtain alternative certification as a child care director when partnered with credits from another field or concentrate on a specific interest in young children such as special needs or literacy.

This program meets the standards for teacher preparation according to the National Association for the Education of Young Children (NAEYC).
